

About Us

Mission Statement

- To make health promotion, disease prevention, health screening and program enrollment accessible to currently underserved populations of Alachua County, embodying a model that could be adopted in any teaching hospital community.

Fee Information

- Fees are based on which agency is running the clinic that day;
- The attending agency is visible on the calendar, located on the home page.
- Equal Access – No fees

Services Provided

Primary Care- The Mobile Clinic and Equal Access Clinic provide routine health screenings and comprehensive primary care.

Primary care is typically a point of first contact when it comes to your health. This type of consultation addresses the widest scope of health care by including patients of all ages and a variety of health care needs.

Primary care services typically include:

- Routine physicals
- Routine health screenings
- Check-ups for minor illnesses and ailments
- Care for chronic illness such as...
 - Hypertension (high blood pressure)
 - Diabetes
 - COPD (Chronic Obstructive Pulmonary Disease)
 - Depression
 - Back pain

As well, other services available through the Mobile and Equal Access Clinics include:

- Social work and psychological consultations
- Administration of medications, over the counter (OTC) and prescription drugs (excluding narcotics)
- Blood pressure/sugar monitoring
- Confidential HIV counseling and testing
- Referrals to WE CARE network specialists
- Emergency dental referrals to the UF dental clinic

Additional Equal Access Clinics are present in Alachua
